

Perfect Scarf for Men

Requirements:

- 1 yard fleece
- 1-4" piece of velcro

Supplies needed:

- All purpose thread to match fabric
- Scissors
- Ruler
- Pins
- Sewing Machine

2008 Flower Girl Design Collection

Cutting Fabric:

Cut 2- 8" x 36" strips of fleece

Cut 1- 4" piece of velcro

Read through the entire pattern before starting to sew.

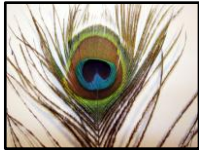

Remove all pins before sewing over them.

All seams are a 1/2".

Perfect Scarf for Men:

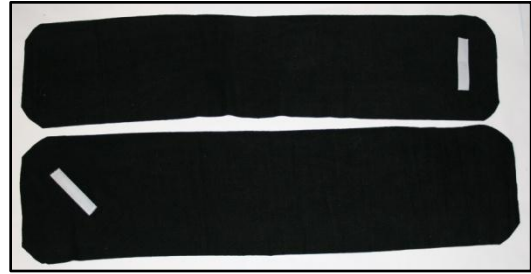

Take your 2 -8" x 36" cuts, fold one scarf strip in half the long way and place your corner template on the end of the scarf strip and make the corner cut. Now do the same for the rest of the 3 sides of the scarf strips.

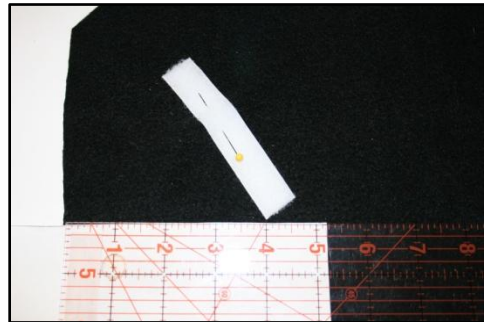

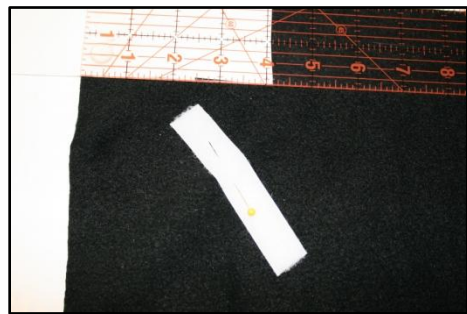

Placement of the velcro:

Lay your two scarf strips right side up, just like the picture, you are going to place the velcro.

The scarf strip closest to you and on the left side, center the velcro and use the placement in the pictures. One side of the velcro is going to be 2" up from the bottom (side farthest away from you) and the other side of the velcro is going to be 4" up from the bottom (closest to you) and pin in place.

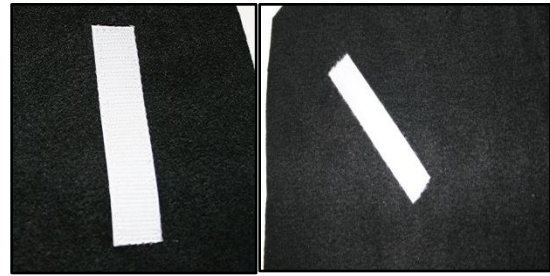

Now the scarf strip that is the farthest away from you, center the velcro and place it on the right side, 2" up from the bottom (straight across) and pin in place.

2008 Flower Girl Design Collection

Use a zigzag stitch and sew your velcro in place. The 2 pieces of velcro will look like the pictures. Now lay the scarf strips down like they were before sewing on the velcro.

Place the scarf strips right sides together; just flip the closest scarf strip to you on top of the farthest away scarf strip. Then the velcro placement will be right. Pin all around, sew and leave a 2" opening for turning.

Turn the scarf right sides out and hand stitch the opening closed and topstitch all around.

You are done, the side of the scarf that has this velcro placement (picture), place it on your right shoulder, velcro facing you, and around your neck. The other velcro placement will be up (showing), stick them together and stay warm and enjoy!
